Patryk Starzycki

Software Engineer

I'm a Software Engineer focused on frontend development, but also not afraid of backend challenges. My two years of experience allowed me to become independent developer, eager to help others. I always want to use my knowledge to design and implement solid and scalable applications. I would like to continue gaining experience as a Mobile Developer.

WORK HISTORY

Associate Software Engineer

07.2021 - present

Montrose Software - Cracow

- Creating and managing web/mobile applications,
- Implementing new and debugging existing features,
- Writing clean, testable code,
